

1. Is ELC able to provide the exact number of devices mentioned in Appendix A? For example - switch, laptop, mobile, servers, VMS, etc.?

All devices are listed in Appendix A. Please note that the ELC has 1 physical host server that contains a total of 9 Virtual Servers. The physical server has dual Intel Xeon 2.2 GHz 10 physical core processors, 64 GB DDR 4 2666 MHz Double Data Rate 4 (DDR4) DIMMS, 6 x 2.4TB, 10K RPM SAS HDDs, RAID10, dual power supplies. Current production Virtual Servers are running Microsoft Windows Operating Systems.

Respondents should reference **Appendix A: Scope of Work of the Request for Proposal (RFP)** for guidance. Provided below is the direct link to the RFP.
